

# DWA\_03.5 Knowledge Check\_DWA3.2

---

1. User story(ies) in Gherkin syntax for the “+” button.

**Scenarios:** User clicks the “+” button that increments the computed value/number by 5

**Given** that I am on the Tally Count Single Counter page.

**When** I click the “+” button, increase the computed number by 5.

**Then** disable the “+” button.

**When** the MAX\_NUMBER (15) is reached.

---

2. User story(ies) in Gherkin syntax for the “-” button.

**Scenarios:** User clicks the “-” button that decrements the computed value/number by 5.

**Given** that I am on the Tally Count Single Counter page.

**When** I click the “-” button, decrease the computed number by 5.

**Then** disable the “-” button.

**When** the MIN\_NUMBER (-5) is reached.
